

## Professional Summary

Technology and business leader with 18+ years of experience delivering complex, high-impact technology initiatives across technical program management, solutions engineering, business development, and product strategy. Proven track record leading cross-functional programs at Google, Shopify, Aramco, and across government and academic institutions. Deep expertise in pre-sales, solutions architecture, and large-scale IT and digital implementations. Extensive startup and early-stage experience spanning technical execution, go-to-market strategy, intellectual property (IP), and technology commercialization.

## Core Competencies

- AI & Emerging Technologies
- Software System Architecture
- Customer Enablement
- Go-to-Market Strategy
- Technical Program Management
- Stakeholder Management
- Technology Commercialization
- IP & Licensing
- Pre-Sales C-Level Engagement
- Solution Architecture
- Product Strategy
- Startup mentorship

## Technical Skills

- Javascript, React, Node.js
- REST, GraphQL
- Python, PHP, SQL
- AI driven software development
- Replit, Lovable, Cursor
- Github
- Google Cloud Platform (GCP)
- Cloud Engineering Certificate
- Data Engineering Certificate

## Hamad Bin Khalifa University (HBKU)

### Research Commercialization Manager

Jun 2025 - Present

- Commercialization of AI-driven technologies from research through proof-of-concept, prototyping, pilot deployments, and commercial deployment via licensing and spinouts.
- Strategic interface between research, industry partners, startups, and legal / IP teams.
- Defined technical, commercial, and go-to-market roadmaps.
- Designed and executed projects to validate AI solutions with customers.
- Build business cases supporting licensing strategies, spinouts, and strategic partnerships.
- Support contract acquisition through tender submissions, project proposals, and partner engagement.
- Managed technology programs with Qatari enterprises and government departments including the Ministry of Justice (MOJ), the National Cyber Security Agency (NCSA), Mowasalat, and Qatar Airways.

## Shopify

### Staff Technical Program Manager (Professional Services) Senior Solutions Engineer

Jul 2021 - Aug 2025

- Led complex technology implementation programs supporting Shopify's largest enterprise customers including Apple, Supreme, and Everlane.
- Directed large-scale platform migrations from Salesforce, Adobe, and custom commerce stacks to Shopify, contributing over \$600M in GMV.
- Led enterprise pre-sales technical solutioning in support of strategic sales engagements.
- Partnered directly with C-suite executives and senior leadership teams at global brands.
- Coordinated cross-functional engineering teams for large integrations.

---

## Aramco

---

### Technology Commercialization Lead

2019 – 2021

- Led early-stage technology programs from research to commercial deployment.
- Developed commercialization and go-to-market strategies.
- Managed technology piloting and demonstration projects.
- Presented strategic recommendations to senior management.
